FX Sesh is currently in beta testing. Premium features are not yet available.

Features Sessions Premium Download Now

Master trading with PROFESSIONAL EDGE

Ace session timing, reduce noise, and trade with precision like a pro.

Download for iOS Download for Android

Access Powerful Features For Serious Traders

Everything you need to stay on top of the forex markets and improve your trading performance.

Real-Time Session Tracking

Monitor all four major forex sessions with live status indicators. Know exactly when markets open and close in your timezone.

Digital & Analog Clocks

Beautiful, customizable clock views showing your local time and active sessions. Swipe between digital and analog displays.

Smart Push Notifications

Get instant alerts when sessions open or close. Customize notifications for each session and never miss a trading opportunity.

Trading Journal

Track your trades with detailed entries including currency pairs, outcomes, notes, tags, and images. Analyze your history.

Cross-Platform

Available on both iOS and Android. Your data syncs across devices so you can trade and track from anywhere, anytime.

Customizable Settings

Set your timezone, configure notification preferences, and personalize your app experience to your trading needs.

Multiple Themes

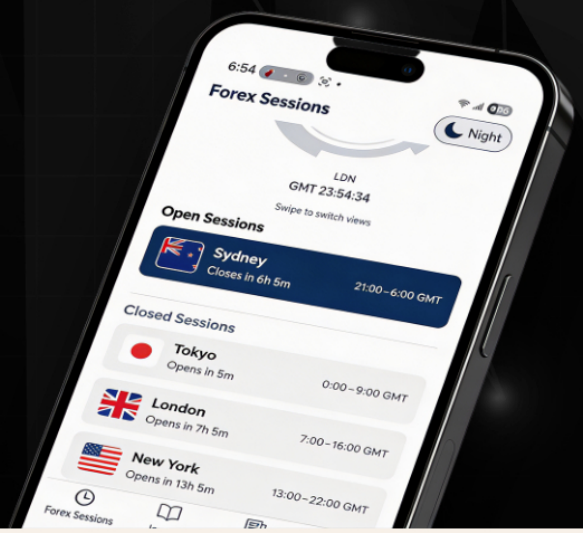
Choose from Day, Night, or Original themes. Customize your app experience to reduce eye strain during long trading sessions.

Educational Content

Access curated YouTube playlists organized by skill level. Learn from expert traders and improve your forex knowledge.

Track All Major Forex Sessions

Monitor the four key trading sessions that drive the global forex market.



PREMIUM ACCESS

Trade With More Signal, Less Noise.

Built for traders who want better timing, cleaner focus, and a faster read on the sessions that matter most.

FX SESH PREMIUM

$4.99

Monthly subscription. Cancel anytime.

Unlock overlap intelligence, proactive alerts, an ad-free experience, and the home screen widget for a sharper trading workflow.

Start Premium

Premium is currently in beta and will expand over time.

Pre-Alerts	Get warned before sessions open so your charts, watchlist, and plan are ready before the market accelerates.
Overlap Notifications	Track the highest-energy windows, including London-New York, Tokyo-London, and Sydney-Tokyo, without constantly checking the clock.
Ad-Free Experience	Stay fully focused on timing, notes, and session flow with a cleaner interface and fewer interruptions.
Home Screen Widget	See live session status at a glance from your home screen, so market context is visible before you even open the app.

Precision timing for serious forex traders.
